

TEACHER OF TECHNOLOGY (MPR/UPR)

Full-time (1 FTE) Permanent

To start January 2022 or sooner

We are seeking to appoint an exceptional and inspiring Teacher of Technology, able to deliver both Food Technology and DT/Engineering to KS3 and at least one DT subject to KS4. Applications from experienced and Newly Qualified Teachers are encouraged and a comprehensive NQT support package would be available if appropriate.

You will be joining a successful team in a growing school, teaching across the age and attainment range at both Key Stage 3 and 4 in an environment where students are well behaved and keen to do well. At KS3 students study two periods of technology per week. They currently study a range of practical modules including both workshop based and food units of work in years 7 and 8. For Year 9 students may choose which technology units they would like to continue to study for a third year as part of a mini options process. GCSE options numbers are strong with a total of six Technology groups each in years 10 and 11.

At RMS, we are looking for a teacher who:

- Has excellent subject knowledge and strong teaching skills
- Is able to build positive relationships with all learners and is committed to raising attainment of all students
- Will work collaboratively within the Technology team to contribute to the success of the department
- Is willing to commit to extracurricular activities that add value to the school and local community
- Is able to respond positively and creatively to the changing expectations of the subject

In return, we can offer:

- Excellent support and fantastic opportunities for continued professional development
- High priority given to staff and student wellbeing
- A dedicated and hardworking team who place students at the heart of everything
- Supportive families who value education and great students who want to learn
- A well-resourced curriculum area supported by technicians
- A broad, exciting and personalised curriculum with a focus on collaborative planning
- A full programme of trips and visits, giving you the chance to share in making positive memories with students
- Consistently excellent student attainment and progress

We pride ourselves on our ethos and culture which promotes positive relationships and behaviour. In our most recent Ofsted report (May 2017), inspectors observed that 'there is a positive ethos throughout the school, which is enhanced by strong relationships between staff and pupils. Pupils conduct themselves well, and are respectful and courteous to one another. Behaviour continues to be typically exemplary'.

Technology is a strong subject within the school and we are proud of our record of success. Public examinations were not completed in summer 2020, however, RMS students continued to perform exceptionally well in Technology subjects.

We have high expectations of all our students and are committed to the personal and professional development of our staff. Our flagship CPD program includes courses suitable for professional development at all career stages including preparation for middle and senior leadership.

Robert May's School, which dates from 1694, is a high attaining and oversubscribed 11-16 Academy school with a distinctive ethos based on the charitable principles of our founder. We are situated in a semi-rural setting in Hampshire, with good rail and road access.

We would welcome the opportunity for an informal chat or visit. Please contact Lisa Shackleton, HR Officer on 01256 702700 or lisa.shackleton@rmays.com for further information or to arrange a visit.

Should you wish to apply for this post, please see the school website www.rmays.org for an application form and submit your application to recruitment@rmays.com

Deadline for applications: **Monday 20th September 2021** (midday).

Interviews will take place as soon as possible afterwards.

Robert May's School is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. We will ensure that all our recruitment and selection practices reflect this commitment. All successful candidates will be subject to an Enhanced Disclosure and Barring Service check along with other relevant pre-employment checks.
